

2Create

Create multimedia projects, interactive books, talking stories, presentations, slide shows, websites and more! See your projects on the web or play to any audience by saving as Flash, an international standard format!

- Combine text, images, sounds & buttons
- Link pages with colourful, clear hyperlinks
- Add actions to any object
- Save as SWF files to publish anywhere!
- Drag and drop pictures, videos & animations into any project
- View individual pages and whole project layout to plan and edit easily
- Videos and support files included!

Testimonial

“Our students find 2Create easy to use and produce terrific work. It is much simpler to use than other similar programs and considerably less expensive.”

Graeme Lane
Principal, Balwyn North Primary School, Vic
