

Neo 2 by AlphaSmart

The simple, portable, low cost computer companion.

Neo 2 is the newest **Neo** from AlphaSmart! It includes all the features that set the award-winning **Neo** apart from other writing and keyboarding tools plus a whole lot more.

Introduce **Neo** to your students and increase their learning potential. Whether you need more computers for your classroom or a rugged alternative to a laptop, **Neo** provides the smartest solution to meet your needs. **Neo** is the easy to use, lightweight, affordable learning device with built-in LCD screen and a full-size keyboard. Its extraordinary battery life, combined with a 50% larger screen and twice as much memory as its predecessor, makes **Neo** the ideal solution for maximizing classroom computer resources.

Neo offers a wide range of classroom-friendly capabilities including:

- An easy-to-read display—50% larger than the AlphaSmart 3000—and support for displaying from two to six lines of text onscreen in AlphaWord Plus
- Instant on/off and autosave to eliminate startup delays and accidental data loss ensure students spend more time writing and less time distracted by the complexities of a computer.
- AlphaWord Plus, an enhanced word processor that includes spell check, thesaurus, word and page count tools, Spanish-English word lookup, and more
- Easy transfer of text to any Macintosh or Windows computer with a single keystroke
- Built-in IrDA port for direct printing and sending to infrared-enabled devices
- Superior battery life—more than 700 hours of use from three standard AA alkaline batteries, or 200 hours on a charge—for extra cost savings and convenience • 3-year warranty (see www.alphasmart.com for complete warranty information)

Students can take this lightweight and rugged learning tool anywhere - the classroom, home, or even on field trips—to write stories, take notes, brainstorm, journal, and more. With 700 hours or more of operation on 3 AA alkaline batteries, **Neo** can go anywhere and run up to a full school year.

The Neo 2 includes:

- **NEW** Responder SmartApplet for instant wireless classroom response to teacher questions
- **NEW** Wireless Printing so students print documents without leaving their desks
- **NEW** 2Know! Toolbar for graphing on-the-fly student responses (Optional; included with the Renaissance Receiver Kit or **Neo 2** SmartOption Mobile Lab; runs on teacher's computer)
- **NEW** AccelTest Integration for access to 8,000 content items (Optional; included with the **Neo 2** SmartOption Mobile Lab; runs on teacher's computer)
- AlphaWord Plus SmartApplet – this feature-rich word processor helps students write, edit and store hundreds of pages of text, and retrieve them again just as easily
- AlphaQuiz SmartApplet – an integrated classroom quiz solution to help teachers quickly assess student performance. Includes quiz design, delivery, automated grading, reporting, and analysis.
- KeyWords SmartApplet – keyboarding and typing tutor provides language-based lessons, including key instruction, accuracy builders and speed builders

Learning Expertise

And Resources Network

- Beamer SmartApplet – allows **Neo 2** (and **Neo**) users to exchange text files with each other, with Dana Wireless devices and with other Palm OS devices
- Write-On! – onboard writing tutor includes over 387 writing lessons to help students break through the “blank-page syndrome” that often intimidates students at the beginning of a project
- Calculator with 5 functions for assisting students in their math assignments if desired
- 3-Year warranty for protection that is unequalled in the laptop business.

Each **Neo 2** package comes supplied with **Neo 2** User Manual, SmartApplet Quick Guide , Documentation CD-ROM, 3 AA batteries (or rechargeable batteries with AC Adaptor for rechargeable units).

More than just mobile

Neo's enhanced display and new font technology allow you to display up to twice as much text as its predecessor. **Neo** enables students to see more of their work on screen without scrolling. You can configure AlphaWord™ Plus, **Neo**'s built-in word processor, to display from two to six lines of text. Use a larger font for younger students, or add more lines of text per screen for enhancing the writing and editing process for more advanced writers. Students can save hundreds of pages of text while still having extra room for SmartApplets®— software programs for extending **Neo**'s versatility in the classroom. To fine-tune writing skills, students can use AlphaWord Plus to spell check, reference the thesaurus, perform word or paragraph counts, or look up Spanish-English word translations.

Affordable and expandable

Neo offers a remarkably low total cost of ownership compared with other computer technology. You can provide one-to-one computing solutions to an entire classroom at a fraction of the cost of laptops. Plus, **Neo**'s SmartApplet architecture allows you to easily add new functionality— keyboarding instruction, classroom quizzing, and outlining—so you can get more from your **Neo** investment.

Cost Savings with Neo

Neo offers the lowest Total Cost of Ownership because, in addition to its exceptional purchase price value, it includes a three-year warranty and toll-free technical support. **Neo**'s extraordinary battery life and rugged design, along with its ultimate simplicity of operation, make its life-cycle costs for support and training the lowest possible.

Neo comes standard with AlphaWord Plus, a feature rich word processor that provides:

- Eight active file spaces for one key file access
- Named files (in addition to eight files) for convenient file management
- Spell Check and Thesaurus
- User dictionary for adding additional words and terms
- Linked files for rubrics, homework instructions, or reference materials
- Find/replace and word count
- Spanish-English word lookup
- Built-in help system for quick access to commands

Neo Products Include:

- One USB cable
- One **Neo** User's Guide
- 3 AA batteries or rechargeable battery pack (as appropriate)
- AlphaSmart Manager Software
