

## Teaching Beginning & Struggling Readers: Putting Theory into Practice

Do you want to know the latest research in helping struggling readers succeed?

**A SEMINAR NOT  
TO BE MISSED!**

Mark this date

***BUT most importantly, do you want to know how to put all this research into PRACTICE so that you can help your Beginner and Struggling Readers succeed?***

***This seminar will show you how to put all the theory into practice***

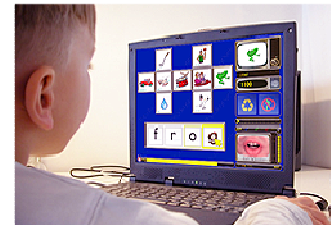

**When: Monday 31<sup>st</sup> May 2010**

**Presenter: Bartek Rajkowski** - Creator of ReadingDoctor ReadingSounds1 Pro

A Full Day workshop including course materials, morning tea and lunch.

### The Morning Session will cover:

- The Reading Process
- Why some Students Struggle with Reading
- What research tells us is the best way to teach students to read
- How does ReadingDoctor, ReadingSounds 1 Pro work

### The Afternoon Session will be a Hands-On Practical Session:

- Practical suggestions and Guided Hands-on instruction in teaching the most crucial skills to Beginner and Struggling readers

**Please Note:** For the benefit of participants, the afternoon session will be a **Practical Hands-On** workshop, so, **Please Bring Your Laptop** for this session. A demo CD will be given to you at the start of the session. For Occupational Health and Safety reasons, we cannot guarantee that there will be power for every laptop so please ensure that your laptop batteries are fully charged.

### The Presenter - Bartek Rajkowski

**Bartek** is a Speech and Language pathologist, the director of Adelaide Speech Pathology Services and the creator of **ReadingDoctor® Software**. He is currently completing a PhD investigating the underlying cause of literacy difficulties at the Flinders University of South Australia. **Bartek's** primary interest is in the relationship between speech, language, auditory processing and literacy skills. His PhD thesis is an investigation of the underlying phonological processing skills in children with Dyslexia and Auditory Processing Disorder (APD). **Bartek** is passionate about research driven, computer based approaches to literacy and language remediation. He is determined to use his clinical experience and theoretical knowledge to develop more effective treatment methods for children with literacy difficulties, and to develop more effective teaching tools for children learning to read. **Bartek** regularly presents training and development workshops on literacy development, literacy difficulties and **ReadingDoctor® Software** to schools, with excellent feedback from participants.

### Who should attend?

**Literacy Teachers and Specialists, Learning Difficulties and Special Needs Specialists, Support Teachers, Early Learning Teachers, Education Assistants, Speech Pathologists, Educational Psychologists**
