

- *Phonics Focus Year 1 CD-ROM
- *Phonics Focus Year 2 CD-ROM
- *Phonics Focus Year 3 CD-ROM
- *Phonics Focus Year 4 CD-ROM

The Phonics Focus CD-ROMs reinforce a range of phonics strategies that will help children to make correct choices in spelling. Customise activities with your own word lists so that practice is tailored to individual needs. The CD-ROMs are pacy and the progression is clear, with the focus on enjoyable activities. Record and track progress and set a sequence of work to give children support where it is most needed. Teachers can customise activities with their own word lists so that practice is tailored to individual needs. Phonics Focus helps pupils to accelerate their learning of phonics to become confident and successful spellers.

Activities are timed so that children can try to beat their own or partner's time if they wish. This can be turned off in the teacher set up menu if required.

Phonics Focus CD-ROMs offer a story-based approach to phonics practice which helps children to read with confidence. Printable teacher's notes are provided for each activity, to save planning time. These CD-ROMs are ideal for independent and pair work on computers, and are also suitable for whole-class work, using an interactive whiteboard.

Benefits:

- Pupil attainment records for each activity and the option to input individual wordlists for students
- Offers a structured progression consistent with spelling rules
- Helps develop blending skills for fluent reading and segmenting skills for accurate spelling

Features:

- Printable teacher's notes for each activity to save planning time
- Instructions and activities include optional audio support to encourage children to work independently
- Teachers can record and track children's progress
- Helps teachers to identify students who are making good progress and those who are finding the activities more challenging
- Has structured, progressive and cumulative practice activities
